Work Experience

Voice/Video/Graphics Development · HOME TREE CREATIVE STUDIOS

Mar 2024 - Sep 2024

In my three months at the company, I improved my video editing skills by working on TikTok trends, crime videos, and social media content. This will be my last video editing project because I can't handle both graphic design and programming at the same time. I developed skills in timing motion and keyframes, and I learned to interact with many different people, including foreigners.

Education

St Peter's College Iligan

Jun 2022 - Jun 2027 · City/Urban/Regional Planning · Bachelor

I'm a graphic designer with 5 years of experience, working on diverse projects that sharpened my skills. From logos to social media content, I blend creativity with functionality. I enjoy collaborating with clients to bring their visions to life, ensuring each piece resonates with its audience. I'm skilled in design tools like Adobe Photoshop, Canva, and Figma, and I prioritize staying updated on trends and techniques. My design approach focuses on storytelling, creating visuals that evoke emotions. I'm excited for future challenges that will push my creativity further.
